Total percentage of top 10 investments **53.1%**

Total number of investments **31**

Investment Mix (May 31, 2019)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Caldwell Investment Management Ltd. has rated this fund's risk as **low to medium**. This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, please see the Risk section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how the Series M units of the fund have performed in the past three years. Returns are after expenses have been deducted. These expenses reduce the fund's returns.

Year-by-year returns

This chart shows how the Series M units of the fund performed in the past three years. The fund has dropped in value in one of the past three years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series M units of the fund in a 3-month period over the past three years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best Return	11.32%	March 29, 2019	Your investment would rise to \$1,113.
Worst Return	-10.52%	December 31, 2018	Your investment would drop to \$895.

Average Return

A person who invested \$1,000 in Series M units of the fund since the date the Series was created now has \$1,009. This works out to an annual compounded return of 0.32%.

Who is this fund for?

Investors who:

- have a long term investment time horizon
- want the stability and income of Canadian government bonds combined with the growth potential of senior Canadian and American corporations

Don't buy this fund if you have a short term investment time horizon of less than 3 years

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much income tax you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series M units of the fund.

The fees and expenses – including commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable to you at a lower cost.

1. Sales charges

No sales charges apply to Series M units of the fund.

2. Fund Expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns.

As of December 31, 2018, the fund's expenses were 1.66% of its value. This equals \$16.60 for every \$1,000 invested.

	Annual rate (as a % of the fund's value)
Management expense ratio (MER) This is the total of the fund's management fee (including the trailing commission), performance fee and operating expenses.	1.43%
Trading expense ratio (TER) These are the fund's trading costs.	0.23%
Fund expenses	1.66%

The fund pays a performance fee in respect of Series M units accrued daily and paid annually on the last valuation date of each year, plus applicable taxes. The performance fee is borne by holders of the Series M units of the Fund and is equal to 20% of the amount by which the Series M NAV per unit at the end of a year (the "Year-End Series NAV per Unit") exceeds the annual target NAV per Series M unit (the "Year-End Target Series NAV per Unit"), multiplied by the number of outstanding Series M units of the fund at the end of that year (the "Year-End Series Units").

The Year-End Target Series NAV per Unit is calculated by multiplying the Series M NAV per unit at the beginning of the year (the "Beginning Series NAV per Unit"), reduced by distributions on that series during the year, by the sum of one plus a benchmark composed 32.5% of S&P /TSX Total Return, 32.5% of S&P 500 Total Return (\$Cdn) and 35% of S&P Canada Sovereign Bond Index for the period that began immediately after the last period in respect of which a performance fee was paid. If at any time the Series M NAV per unit is less than the Target NAV, then no performance fee will be payable until the Series M NAV per unit exceeds the then applicable Target NAV.

For the purpose of calculating the performance fee, the Beginning Series NAV per Unit will be reset on January 1st of each year to (i) the Year-End Series NAV per Unit from the last year that a performance fee was earned, or (ii) if no performance fee has been previously earned, the Series NAV per Unit on the day the series was first issued to the public.

More about Trailing Commissions

No trailing commission is paid to your investment firm in respect of Series M units of the fund.

3. Other Fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	2% of the value of units you sell or switch within 90 days of buying them. This fee goes to the fund.
Series M fee	Series M units of the fund are designed for investors who are participants in the Caldwell Managed Portfolio Program that does not require payment of sales charges by investors but who are charged an annual fee by their representative.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.
