Management Discussion of Fund Performance

Investment Objective

The fundamental investment objective of the Fund is to generate capital growth by investing in a concentrated basket of Canadian equities which show the highest potential for capital gains over a moderate holding period.

The investment objective of the Fund may only be changed with the approval of unitholders at a meeting called for that purpose.

Results of Operations

The Fund increased 9.9% in the first half of 2019 versus a gain of 16.2% for the Index. The under-performance versus the Index occurred primarily in January where the Fund struggled to keep pace with the Index's 8.7% return given the Fund entered the year with a 55% cash weighting.

Performance in the first half was driven by the Fund's holdings in Industrials, Materials, Energy and Consumer Staples, led by Badger Daylighting, Kirkland Gold, CGI Group, Cargojet and North American Construction. This was offset by the Fund's cash drag, along with the Fund's underweight position in Financials. Leading detractors were Dirtt Environmental Solutions, Enerflex, Boyd Group and Brookfield Asset Management.

Recent Developments

Two stocks were added to the portfolio in June: Boyd Group ("BYD.UN") and Goeasy ("GSY"). Boyd operates vehicle collision and auto-glass repair centers in the U.S. and Canada (the U.S. accounts for 85% of revenue). The company has tripled its revenue over the past 5 years as it consolidates and brings institutional best practices to these fragmented markets and is looking to once again double its revenue going forward. Same-store-sales were 6.6% this past quarter as industry dynamics remain favorable with auto insurers consolidating vendor relationships and single-store operators struggle to compete with multi-shop peers.

Goeasy is a non-prime Canadian lender. Despite investor caution on the space (GSY trades at 9.9x consensus 2019 EPS estimate), credit trends remain stable and the stock made a new high following the company's investor day in May in which it walked through the competitive environment and growth runway. From a competitive standpoint, GSY has a leadership position within the non-prime market with a strong brand, branch network and peer-leading performance, while online and payday loan players have struggled to gain traction. The business is highly profitable with a strong growth runway as it broadens its product offerings, distribution channels and geographic reach (GSY revenue is <\$1 billion in a \$186 billion non-prime market).

The Fund exited the half with a 13% cash weighting.

Independent Review Committee

Under the provisions of National Instrument 81-107 – *Independent Review Committee for Investment Funds* (NI 81-107”), which came into force on November 1, 2006, it is now required that all publicly offered investment funds, such as the Fund, establish an independent review committee (“IRC”) to whom the manager is to refer all potential conflict of interest matters in order to obtain a recommendation or approval, as applicable. NI 81-107 further mandates that the IRC be composed of at least three independent members and requires that they conduct assessments and regularly report to the Manager and unitholders in respect of its duties.

The current members of the Manager’s IRC are Trent Morris, Sharon Kent and F. Michael Walsh.

Forward-looking Statements

Certain statements included in this report may constitute forward-looking statements, including those identified by the expressions “believe”, “anticipate”, “expect” or similar expressions to the extent they relate to the Fund, its Manager or its portfolio manager. Such forward-looking statements are not historical facts but reflect the Fund’s, the Manager’s or the portfolio manager’s current expectations regarding future results or events. Such forward-looking statements are subject to a number of risks and uncertainties that could cause actual results or events to differ materially from current expectations. Readers are cautioned to consider these and other factors carefully when making decisions with respect to the Fund and not place undue reliance on forward-looking statements. Unless required by applicable law, the Fund does not undertake any obligation to update publicly or to revise any of such forward-looking statements, whether as a result of new information, future events or otherwise.

Forward-looking statements included or incorporated by reference in this report include statements with respect to:

- Interest rates
- Change in accounting policy

Related Party Transactions

Manager and Portfolio Adviser

The Manager is a wholly owned subsidiary of Caldwell Financial Ltd. The Manager is also the portfolio adviser of the Fund. The Manager is responsible for the Fund’s day-to-day operations, provides investment advice and portfolio management services to the Fund and appoints distributors for the Fund. For its administrative services, trustee fees, asset allocation, security selection, ongoing monitoring and related services, the Manager is paid an annual fee up to 1.0% based on the net asset value of Series F units of the Fund and up to 1.5% based on the net asset value of Series O units of the Fund.

Trustee

The trustee of the Fund is Caldwell Investment Management Ltd.

Principal Distributor

Caldwell Securities Ltd. is related to the Manager in that both are wholly-owned subsidiaries of Caldwell Financial Ltd. Caldwell Securities Ltd. markets units of the Fund directly to the public and receives sales commissions and trailer fees based on the total value of their clients' holdings in the Fund on the same basis as other dealers that distribute units to the public.

Brokerage Arrangements

The purchase and sale of portfolio securities is arranged by the Manager through registered brokers or dealers. The Manager has a regulatory obligation to make reasonable efforts to achieve best execution of those portfolio trades when acting for the Fund. Best execution refers to the most advantageous execution terms reasonably available under the circumstances.

The Manager may choose to execute a portion of the Fund's portfolio transactions with Caldwell Securities Ltd., an affiliate of the Manager. The Manager applies its best execution policy in respect of both affiliated and non-affiliated dealers. Specifically, any trade allocation to an affiliated dealer is based on an assessment of the same best execution criteria.

Because Caldwell Securities Ltd. is an affiliate of the Manager and the interrelationship of their businesses, a conflict of interest exists that has the potential of influencing the Manager's choice of Caldwell Securities Ltd. to execute Fund portfolio transactions. The Manager addresses this conflict of interest by applying its best execution policy and by following best execution standing instructions issued by the Fund's independent review committee.

The Fund pays Caldwell Securities Ltd. an annual brokerage fee of 0.50% of the net asset value as compensation for portfolio transactions executed by Caldwell Securities Ltd. Portfolio transactions executed by brokers other than Caldwell Securities Ltd. will be subject to those broker's customary commissions, taxes and fees.

To date in 2019, the Fund has paid \$121,933 in brokerage fees to Caldwell Securities Ltd. and for the similar period in 2018, the Fund paid \$94,450.

Trading Expense ratio ⁽⁴⁾	0.57%	0.58%	0.52%	0.50%	0.50%

⁽¹⁾ This information is provided as at June 30, 2019 (unaudited) and December 31 of previous years.

⁽²⁾ Management expense ratio is based on total expenses for the stated period and is expressed as an annualized percentage of daily average net assets during the period.

⁽³⁾ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

⁽⁴⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period.

Management Fees

As compensation for managing the Fund, the Manager can receive an annual fee up to 1.0% of the average net asset value of the Fund in respect of Series F units and 1.5% in respect of Series O units. Such fees are calculated daily and payable monthly. The Manager in turn is responsible for paying investment adviser fees, trustee fees, sales commissions, trailer fees and has chosen to absorb certain expenses for which the Fund is responsible.

Distribution	41%
Management and Portfolio Adviser Services	58%
Waivers and Absorption of Fund Expenses	1%

Past Performance

The following charts shows how the Fund has performed in the past, and can help you understand the risks of investing in the Fund. These returns include the reinvestment of all distributions and would be lower if they did not. They don't include deduction of sales, switch, redemption, or other optional charges (which distributors may charge) or income taxes payable, and would be lower if they did. The Fund's past performance is no guarantee of how it will perform in the future.

Year-by-Year Returns

The bar charts shows how the Fund's annual past performance has varied from year to year for each of the years shown. It shows in percentage terms how an investment made on January 1 would have increased or decreased by December 31 for that year.
