Management Discussion of Fund Performance

Investment Objective

The fundamental investment objective of the Tactical Sovereign Bond Fund (the “Fund”) is to generate attractive total returns, while placing an emphasis on capital preservation, by investing primarily in a portfolio of government guaranteed bonds.

The investment objective of the Fund may only be changed with the approval of unitholders at a meeting called for that purpose.

Results of Operations

For the first half of 2019, the Fund’s Series A net asset value per unit went up from \$4.51 to \$4.56, an increase of 1.11%. Assets in Series A decreased from \$4.18 million to \$3.91 million.

The Fund’s Series F are intended for use in fee-based accounts. The Series F net asset value per unit also went up from \$9.58 to \$9.72 during the period, an increase of 1.46%. Assets in this series fell from \$12.28 million to \$9.96 million.

Overall, the Fund’s assets fell from \$16.46 million to \$13.87 million during the period.

Recent Developments

Trade tensions have greatly increased uncertainties around the world, and hurt business capital investment in particular. The U.S. Federal Reserve has responded by cutting their Fed funds rate by 25 basis points in July 2019. Other central banks also embarked on their own, respective, interest rate cutting initiative. However, the Bank of Canada still believes that the Canadian economy is resilient. While acknowledging the trade tensions, has chosen to stand pat.

As a result, the difference between U.S. and Canadian interest rates ‘narrowed’ (Canadian interest rates, which are lower than those of the U.S. remain stable, while U.S. interest rates fell, making the difference smaller).

The immediate result is a strengthening Canadian dollar, which acts as a headwind for our exports.

For the balance of 2019, we anticipate the current economic slowdown to extend into the second half of 2019, which will benefit government bonds. The slowdown will be particularly more pronounced in Canada, thus hurting the Canadian dollar versus the U.S. dollar. The Fund will be able to benefit from the rise of bond prices and the decline in the Canadian dollar/rise in the U.S. dollar.

Independent Review Committee

Under the provisions of National Instrument 81-107 – *Independent Review Committee for Investment Funds* (“NI 81-107”), which came into force on November 1, 2006, it is now required that all publicly offered investment funds, such as the Fund, establish an independent review committee (“IRC”) to whom the manager is to refer all potential conflict of interest matters in order to obtain a recommendation or approval, as applicable. NI 81-107 further mandates that the IRC be composed of at least three independent members and requires that they conduct assessments and regularly report to the Manager and unitholders in respect of its duties.

The current members of the Manager’s IRC are Trent Morris, Sharon Kent and F. Michael Walsh.

Forward-looking Statements

Certain statements included in this report may constitute forward-looking statements, including those identified by the expressions “believe”, “anticipate”, “expect” or similar expressions to the extent they relate to the Fund, its Manager or its portfolio manager. Such forward-looking statements are not historical facts but reflect the Fund’s, the Manager’s or the portfolio manager’s current expectations regarding future results or events. Such forward-looking statements are subject to a number of risks and uncertainties that could cause actual results or events to differ materially from current expectations. Readers are cautioned to consider these and other factors carefully when making decisions with respect to the Fund and not place undue reliance on forward-looking statements. Unless required by applicable law, the Fund does not undertake any obligation to update publicly or to revise any of such forward-looking statements, whether as a result of new information, future events or otherwise.

Forward-looking statements included or incorporated by reference in this report include statements with respect to:

- Interest rates
- Change in accounting policy

Related Party Transactions

Manager and Portfolio Adviser

The Manager is a wholly owned subsidiary of Caldwell Financial Ltd. The Manager is also the portfolio adviser of the Fund. The Manager is responsible for the Fund's day-to-day operations, provides investment advice and portfolio management services to the Fund and appoints distributors for the Fund. For its administrative services, trustee fees, asset allocation, security selection, ongoing monitoring and related services, the Manager is paid an annual fee up to 0.75% based on the net asset value of Series A units of the Fund (1.25% prior to July 11, 2018) and up to 0.25% based on the net asset value of Series F units of the Fund (0.75% prior to July 11, 2018).

Trustee

The trustee of the Fund is Caldwell Investment Management Ltd.

Principal Distributor

Caldwell Securities Ltd. is related to the Manager in that both are wholly-owned subsidiaries of Caldwell Financial Ltd. Caldwell Securities Ltd. markets units of the Fund directly to the public and receives sales commissions and trailer fees based on the total value of their clients' holdings in the Fund on the same basis as other dealers that distribute units to the public.

Brokerage Arrangements

The purchase and sale of portfolio securities is arranged by the Manager through registered brokers or dealers. The Manager has a regulatory obligation to make reasonable efforts to achieve best execution of those portfolio trades when acting for the Funds. Best execution refers to the most advantageous execution terms reasonably available under the circumstances.

The Manager may choose to execute a portion of the Funds' portfolio transactions with Caldwell Securities Ltd., an affiliate of the Manager. The Manager applies its best execution policy in respect of both affiliated and non-affiliated dealers. Specifically, any trade allocation to an affiliated dealer is based on an assessment of the same best execution criteria.

Because Caldwell Securities Ltd. is an affiliate of the Manager and the interrelationship of their businesses, a conflict of interest exists that has the potential of influencing the Manager's choice of Caldwell Securities Ltd. to execute Fund portfolio transactions. The Manager addresses this conflict of interest by applying its best execution policy and by following best execution standing instructions issued by the Funds' independent review committee.

To date in 2019, the Fund has paid \$46,917 in commissions to Caldwell Securities Ltd. and for the similar period in 2018, the Fund paid \$44,610.

Trading Expense ratio ⁽⁴⁾	0.79%	0.20%	0.11%	0.22%

⁽¹⁾ This information is provided as at June 30, 2019 (unaudited) and December 31 for previous years.

⁽²⁾ Management expense ratio is based on total expenses for the stated period and is expressed as an annualized percentage of daily average net asset value during the year.

⁽³⁾ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund.

⁽⁴⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period.

Management Fees

As compensation for managing the Fund, the Manager can receive an annual fee up to 0.75% based on the net asset value of Series A units of the Fund (1.25% prior to July 11, 2018) and up to 0.25% based on the net asset value of Series F units of the Fund (0.75% prior to July 11, 2018). Such fees are calculated daily and payable monthly. The Manager in turn is responsible for

paying investment adviser fees, trustee fees, sales commissions, trailer fees and has chosen to absorb certain expenses for which the Fund is responsible.

Distribution	34%
Management and Portfolio Adviser Services	66%
Waivers and Absorption of Fund Expenses	0%

Past Performance

The following charts shows how the Fund has performed in the past, and can help you understand the risks of investing in the Fund. These returns include the reinvestment of all distributions and would be lower if they did not. They don't include deduction of sales, switch, redemption, or other optional charges (which distributors may charge) or income taxes payable, and would be lower if they did. The Fund's past performance is no guarantee of how it will perform in the future.

Year-by-Year Returns

The bar charts shows how the Fund's annual past performance has varied from year to year for each of the years shown. It shows in percentage terms how an investment made on January 1 would have increased or decreased by December 31 for each year.
