Total percentage of top 10 investments		66.78%
Total number of investments		18

Investment Mix (December 20, 2019)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Caldwell Investment Management Ltd. has rated this fund's risk as **low to medium**. This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, please see section "What are the risks associated with mutual funds?" of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how the Series I units of the fund have performed since inception. Returns are after expenses have been deducted. These expenses reduce the fund's returns.

Year-by-year returns

This information is not available because no Series I units of the fund have been issued to the public.

Best and worst 3-month returns

This information is not available because no Series I units of the fund have been issued to the public.

Average Return

This information is not available because no Series I units of the fund have been issued to the public.

Who is this fund for?

Investors who:

- have a low to medium risk tolerance
- have a mid-term investment time horizon
- want capital growth

Don't buy this fund if you have a short term investment time horizon of less than 3 years or capital growth is your primary investment objective

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much income tax you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund.

The fees and expenses – including commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable to you at a lower cost.

1. Sales charges

No sales charges apply to Series I units of the fund.

2. Fund Expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns.

The fund's expenses are made up of the management fee, performance fee, operating expenses and trading costs. The Series I annual management fee is 0.75% of the Series' value. Because this Series is new, operating expenses and trading costs are not yet available.

The fund pays a performance fee ("CCVMF Performance Fee) in respect of Series I units accrued daily and paid annually on the last valuation date of each year, plus applicable taxes. In order for the performance fee to be accrued and payable by the fund, four conditions must be met (i) the current year-to-date return of the Series must be positive; (ii) the series must be outperforming the year-to-date return of the S&P/TSX Total Return Index (the "Performance Benchmark"); (iii) the current NAV must exceed the high-water-mark of each of the series of the fund (the "CCVMF HWM"); and (iv) the CCVMF Performance Fee cannot reduce the year-to-date return below 0%.

The performance fee is borne by holders of the Series I units of the fund and is equal to 15% of the outperformance of a fund to the Performance Benchmark, subject to the above noted conditions.

For the purposes of (iii) above on any valuation date of the Series of the Fund, the CCVMF HWM is determined as follows:

- a) If the current Performance Benchmark is lower than the Performance Benchmark on the date performance fee was last paid, the CCVMF HWM equals the NAV per unit (calculated on a per Series basis) on the date a performance fee was last paid, or
- b) If the current Performance Benchmark exceeds the Performance Benchmark on the date the performance fee was last paid, the CCVMF HWM equals the product of the NAV per unit (calculated on a per Series basis) on the date a performance fee was last paid and the change in the Performance Benchmark (between the current date and the date a performance fee was last paid). For greater clarity, $CCVMF\ HWM = NAV_{per\ unit\ of\ pf\ last\ paid} * (PB_{current} / PB_{pf\ last\ paid})$.

In consideration of (iv) above, where the calculated CCVMF Performance Fee is greater than the year-to-date return of the Series, the CCVMF Performance Fee will be adjusted downward to equal the year-to-date return. Where the year-to-date return exceeds the calculated CCVMF Performance Fee, the calculated CCVMF Performance Fee is earned.

The fund pays an annual brokerage fee to Caldwell Securities Ltd. as compensation for fund portfolio transactions executed by Caldwell Securities Ltd. of up to 0.50% of the Series I NAV. Portfolio transactions executed by brokers other than Caldwell Securities Ltd. will be subject to those brokers' customary commissions, taxes and fees. The management fee to Caldwell Investment Management Ltd. and the brokerage fee to Caldwell Securities Ltd. to be borne by holders of Series I units of the fund will not exceed, in the aggregate, 0.75% of the Series I NAV.

More about Trailing Commissions

No trailing commission is paid to your investment firm in respect of Series I units of the fund.

3. Other Fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	2% of the value of units you sell or switch within 90 days of buying them. This fee goes to the fund.
Switch fee	Your investment firm may charge you up to 2% of the value of units you switch to another Caldwell Mutual Funds.
Series I fee	Series I units of the fund are designed for investors who are participants in fee-based programs that do not require payment of sales charges by investors but who are charged an annual fee by their representative.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.
