WHY INVEST

Tactical Sovereign Bond Fund employs a unique and proven investment strategy designed to capitalize on anticipated interest rate changes and yield curve shifts within the Canadian and U.S. fixed income market. It is the only fixed income fund offered in Canada which strategically manages duration and currency in a portfolio that provides exposure to government-guaranteed bonds and treasury bills.

KEY FEATURES

- Government guaranteed securities underlying the portfolio
- High quality portfolio offering both capital preservation as well as the potential for attractive total returns
- Seeks to identify and exploit inefficiencies and temporary imbalances in the fixed income market, allowing the manager to take advantage of shorter-term cycles within a broader thematic trend
- The Fund benefits from the manager's ability to tactically reposition the portfolio in anticipation of changing market dynamics
- No constraints on the duration of the Fund's portfolio
- Active currency management – ability to recognize and benefit from interest rate differentials within the U.S. and Canadian currency markets
- Ability to temporarily invest 100% of the portfolio in cash to protect against significant projected market declines
- Proven management – providing over 35 years of expertise in navigating through various economic and market cycles
- Low 0.25% p.a. management fee

THOUGHTFUL INVESTING

*The Fund, following a security holder vote, changed its fundamental investment objective August 27, 2018 and also reclassified former Series I units to the current Series F. For more information refer to the Annual Information Form of the Fund.

The information contained herein provides general information about the Fund at a point in time. Investors are strongly encouraged to consult with a financial advisor and review the Simplified Prospectus and Fund Facts documents carefully prior to making investment decisions about the Fund. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Rates of returns, unless otherwise indicated, are the historical annual compounded returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. Mutual funds are not guaranteed; their values change frequently and past performance may not be repeated.
